

SMART DIGITAL LOCKS

A Touch of Divinity

S-LOCK SMART DIGITAL LOCKS

Your home is your sanctuary that deserves a masterpiece at its center. Hence, S-Lock was born from the desire to bridge the gap between impenetrable safety and ethereal beauty. We are determined to engineer the perfection, a seamless blend of intuitive technology and sculpted elegance. We craft every lock to be a silent guardian that complements your lifestyle, from the curve of the handle to the responsiveness of the sensor.

Incredible Security

The highest level of mechanical protection against picking and drilling. Real-time alerts through mobile app.

Beautiful Design

A perfect blend of ethereal inspirations and high-performance materials that fit to all architecture.

Ultra-High Durability

Crafted from premium materials and proven to deliver decades of seamless operation.

World-Class Protection for Your Private Sanctuary

We believe that your family's safety should never be a leap of faith. That is why every S-Lock is meticulously engineered to the highest standards. When you choose S-Lock, you are choosing a fortress of protection that meets the world's most stringent regulatory benchmarks:

The Creation of Masterpiece

A TOUCH OF DIVINITY

The Human Touch Is One of The Most Profound Gifts Ever Bestowed upon Us—A Power Granted by The Divine.

We recognize that the most secure key in existence is not made by man, but is etched into your very identity by a higher power. So, we have harnessed the power of touch and developed every S-Lock with fingerprint access to redefine the very nature of home security. By embedding advanced semiconductor fingerprint access into the heart of every lock, we allow your unique human identity to become a living part of your home's architecture. In this moment, technology disappears, and your identity becomes the ultimate shield, ensuring that the transition into your private world is always an experience of grace, safety, and absolute peace.

The Smart Choice for Strong Security

Theft Alarm

The lock will alarm people and notify you through your phone if the password has been misinputted over 5 times

Break in Alarm

You will be alerted if someone is trying to break in through your door from the outside

Lockable from the Inside

You are able to lock the door from others even if they know your password

DESIGN WITH INNOVATION

Multiple Unlocking Methods

Face Recognition

Fingerprint

Mobile App

Manual Password

RFID Card

Emergency Unlocking

Bluetooth Connectivity

With built-in Bluetooth, enjoy keyless entry, real-time control, and easy access sharing.

Built-in Doorbell Function

No need to install a doorbell, saving your time and effort.

SERAPH

Product Specification : Seraph	
Unlocking Methods	Face Recognition, Fingerprint, Mobile App, Password, Card, Mechanical Key
Color	Black
Material	Aluminium Alloy
Dimensions (H×W×D)	425 x 71 mm
Door Thickness	30-120 mm
Battery Supply	AA Alkaline Batteries × 4
Networking Method	TUYA Bluetooth, Wifi
Data Capacity	Password 100, Fingerprint 100, Card 100, Face Recognition 50
Door Type Compatibility	Wood door, UPVC door
Emergency Power Supply	5V Mobile Power Supply
Charging Port	Type-C
Product Warranty	1 year

SENTIENT - I

Product Specification : Sentient-I	
Unlocking Methods	Face Recognition, Fingerprint, Mobile App, Password, Card, Mechanical Key
Color	Black
Material	Aluminium Alloy
Dimensions (H×W×D)	420 × 70 mm
Door Thickness	30-120 mm
Battery Supply	AA Alkaline Batteries × 4
Networking Method	Built-in Bluetooth, Wi-Fi
Data Capacity	Face Recognition: 50 users, Fingerprint: 100 users, Password: 100 users, Card: 100 users
Door Type Compatibility	Wooden Door, UPVC Door
Emergency Power Supply	5V Mobile Power Supply
Charging Port	Type-C
Product Warranty	1 year

SENTIENT - II

Product Specification : Sentient-II	
Unlocking Methods	Face Recognition, Fingerprint, Mobile App, Password, Card, Mechanical Key
Color	Black
Material	Aluminium Alloy
Dimensions (H×W×D)	420 × 70 mm
Door Thickness	30-120 mm
Battery Supply	AA Alkaline Batteries × 4
Networking Method	Built-in Bluetooth, Wi-Fi
Data Capacity	Face Recognition: 50 users, Fingerprint: 100 users, Password: 100 users, Card: 100 users
Door Type Compatibility	Wooden Door, UPVC Door
Emergency Power Supply	5V Mobile Power Supply
Charging Port	Type-C
Product Warranty	1 year

SIERRA

Product Specification : Sierra	
Unlocking Methods	Fingerprint, Mobile App, Password, Card, Mechanical Key
Color	Black
Material	Aluminium Alloy + Tempered Glass with Lock body Stainless Steel
Dimensions (H×W×D)	368 × 73 × 21 mm
Door Thickness	30-120 mm
Battery Supply	AA Alkaline Batteries × 4
Networking Method	Built-in Bluetooth, Wi-Fi
Data Capacity	Fingerprint: 100 users, Password: 100 users, Card: 100 users
Door Type Compatibility	Wooden Door, UPVC Door
Emergency Power Supply	5V Mobile Power Supply
Charging Port	Type-C
Product Warranty	1 year

SARIEL

Product Specification : Sariel	
Unlocking Methods	Fingerprint, Mobile App, Password, Card, Mechanical Key
Color	Black
Material	Aluminium alloy Lock Body Stainless Steel
Dimensions (H×W×D)	330 x 37 x 24 mm
Door Thickness	25 mm and above
Battery Supply	AA Alkaline Batteries × 3
Networking Method	Built-in Bluetooth, Wi-Fi
Data Capacity	Fingerprint: 100 users, Password: 100 users, Card: 100 users
Door Type Compatibility	Wooden Door, UPVC Door, Sliding Glass Door
Emergency Power Supply	5V Mobile Power Supply
Charging Port	Type-C
Product Warranty	1 year
